#### COMING UP IN NEXT ISSUE

##### The Company of the Year

This highly anticipated annual issue focuses on the company that best exemplifies the success of South Florida corporations in the past year. This year's non-traditional choice is no less deserving. Non-profit, private University of Miami, with President Donna Shalala at its helm, has embarked on a \$1 billion capital campaign, which they have both met and exceeded. With the recent addition of Medical School Dean Pascal Goldschmidt, the medical school is looking to become an elite medical research program, already third in NIH grants in the country.
